

# METRO SOUTH JUNIOR FOOTBALL LEAGUE INC.

## How to work out Percentage.

Points for divided by (Points for + Points against) x 100.

- **Example:** Club A:  $9 - 6 = 60$  points d Club B:  $1 - 2 = 8$  points
- **Club A:** 60 points divided by 68 points = 0.8824  
 $0.8824 \times 100. = 88.24\%$  for Club A.
- **Club B:** 8 points divided by 68 points = 0.1177  
 $0.1177 \times 100. = 11.77\%$  for Club B.

## How to work out Match Ratio.

Games (points) won divided by Games (points) played for x 100.

- **Example:** Club C: Won 15 games (30 points) of 18 rounds (36 points) played for.
- **Club C:** 30 divided by 36 =  $0.8333 \times 100 = 83.33$  Match Ratio for Club C.
